THE JC GROUP COMPANY PROFILE

Expertise across every horizon.

Marine engineering. Satellite connectivity.
Products and services for maritime operations.

One group. Three specialist businesses.

Marine Integration

Marine equipment, navigation and automation.

Connexion

Satellite airtime, leasing, tracking and IT.

Supply

Marine supplies and technical support.

Professional. Practical. Proactive.

OUR VISION

To excel as a diversified, progressive and well-respected marine services provider in South East Asia.

01

Deliver

Complete work within customers’ timelines with competent, qualified technicians and field engineers.

02

Commit

Achieve customer requirements and satisfaction within the agreed timeframe.

03

Support

Build a motivated workplace for long-term partnerships and quality of life.

Local expertise. Regional reach.

01

Beyond Malaysia

Service partner networks support work at clients' required seaports.

02

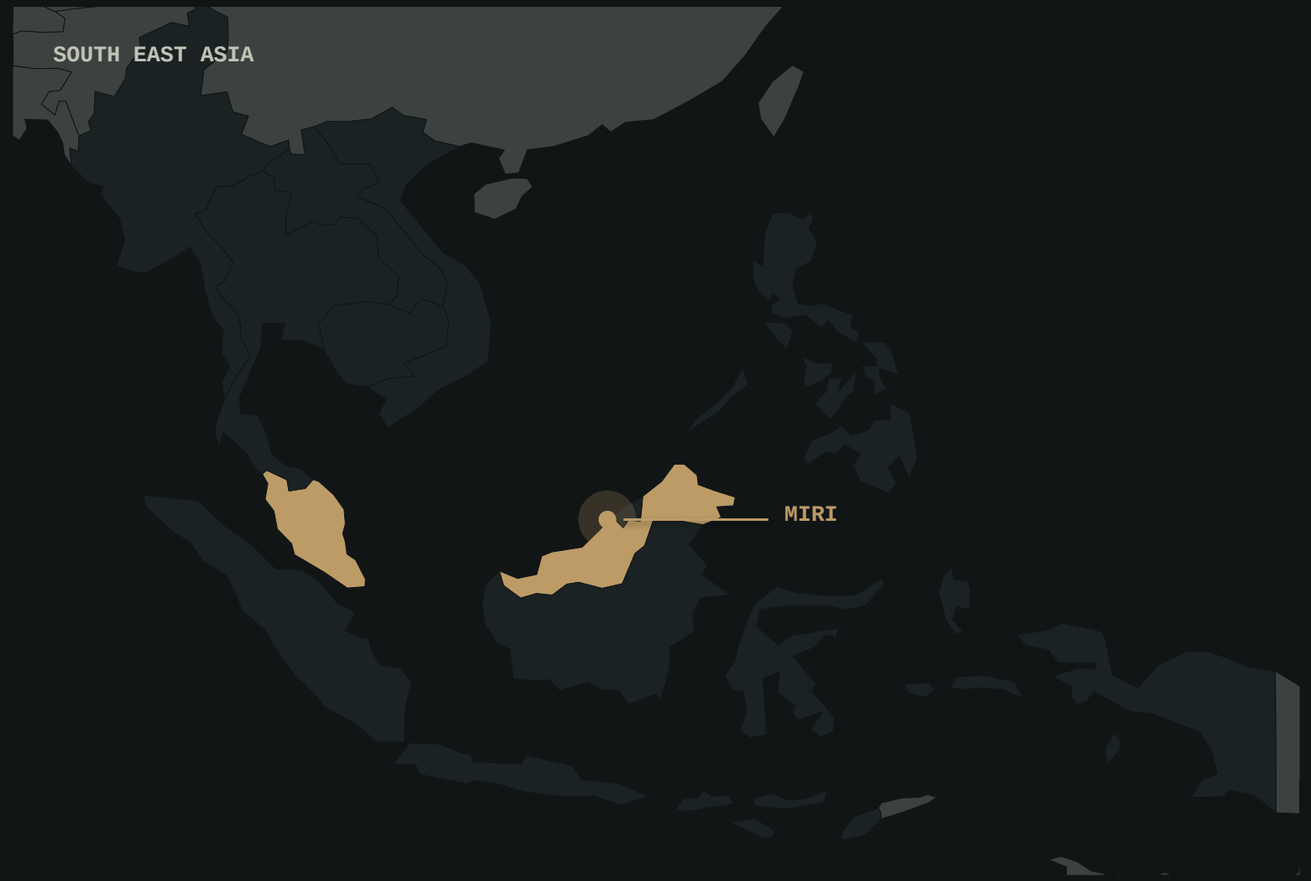

Across time zones

Coordination across South East Asia time zones.

03

Mobile field teams

Technicians and service engineers travel according to client requirements.

01

THE JC MARINE INTEGRATION DIVISION

Marine expertise since 1999.

Integrated solutions for the shipping industry, specialising in marine communication and navigation equipment, as well as automation systems.

1999

MARINE EXPERTISE SINCE

A complete equipment service cycle.

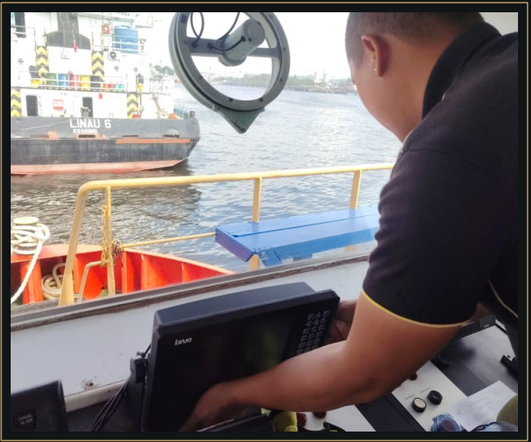

01 Inspect

02 Troubleshoot

03 Repair

04 Maintain

05 Programme

SALES & INSTALLATION

New-build vessels.
Existing vessel upgrades.

Supply and installation of new equipment, plus replacement equipment for existing vessels.

Established brands. Specialist support.

AUTHORISED DISTRIBUTOR

JRC & Alphatron Marine

AUTHORISED DEALER

Iridium LT-3100

Maintenance, verification & compliance.

Shore-based maintenance

Support for authorised Shore-Based Maintenance Agreements, mandated by flag authorities to validate vessel GMDSS communication systems.

VDR & SVDR annual performance tests

Qualified and recognised field engineers and technicians conduct APTs for Voyage Data Recorders and Simplified Voyage Data Recorders.

Precision for vessel navigation.

Gyrocompass calibration

Qualified technicians calibrate gyrocompasses across various brands.

Magnetic compass adjustment

Qualified field engineers adjust magnetic compasses across various brands.

02

THE JC CONNEXION DIVISION

Connectivity that travels.

Established in 2023, JC Connexion is a sister company of JC Marine Integration, providing satellite airtime services for maritime and offshore vessels.

100+

VSAT & STARLINK UNITS SUPPLIED / INSTALLED

Flexible satellite airtime.

L-band / FleetBroadband / Fleet One

Comprehensive bandwidth solutions and satellite airtime services for maritime and offshore communication.

01

Prepaid

A range of packages valid for one month or 30 days from activation.

02

Postpaid

Pay per use at an agreed fixed price.

VSAT & Starlink, installed onboard.

At berth.
At anchorage.

Installation within port limit areas.

Airtime is also available for customers with their own satellite equipment already fitted onboard.

PREPAID & POSTPAID AIRTIME

Two ways to lease satellite equipment.

Lease to Own

24–60 MONTHS

Option to purchase the equipment at an agreed price when the lease expires.

Life-time Warranty

24–60 MONTHS

Option to terminate after 24 months. Eligible faults or non-human-caused damage qualify for a 1-for-1 equipment exchange.

BOTH PACKAGES INCLUDE

VSAT or Starlink equipment

Installation & dismantling

Commissioning & system setup

Monthly airtime charge

Keep onboard data under control.

An onboard firewall monitors and controls data usage for efficient, cost-effective satellite communication.

Visibility beyond the horizon.

POLE STAR Purplefinder

Reliable, real-time ship tracking solutions.

TRACKING SUPPORT

01

Tracking system installation

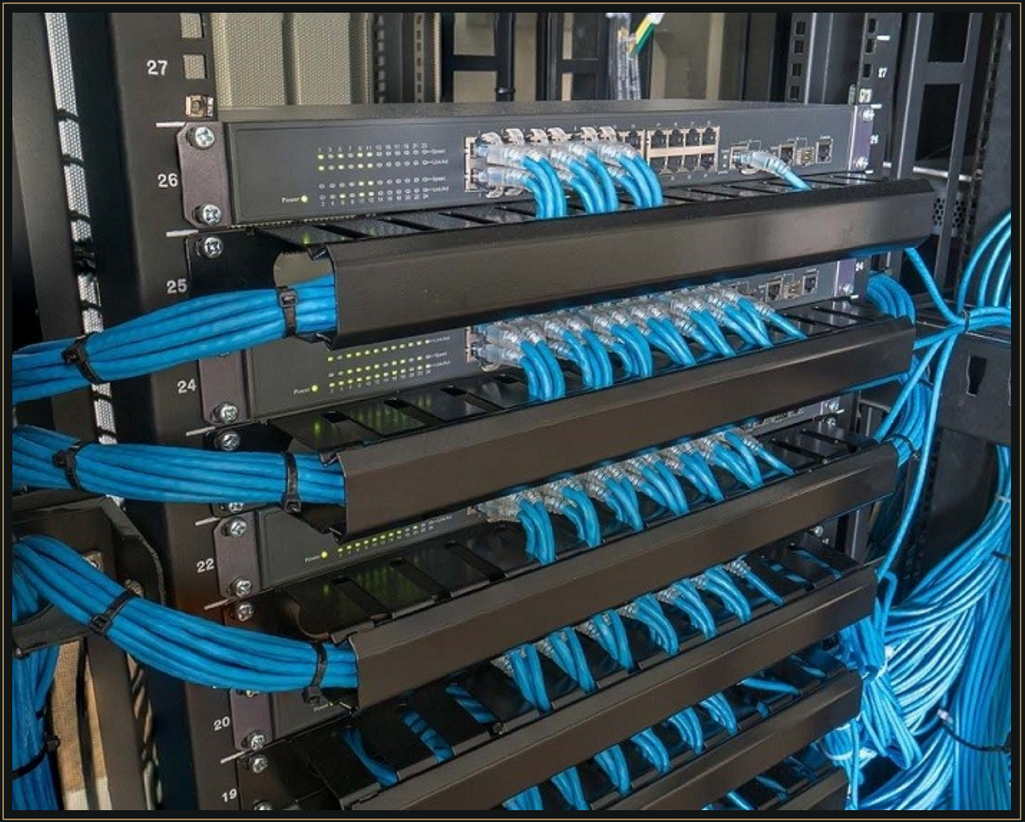

02

Airtime subscription

03

Equipment leasing & airtime bundle

IT systems that support the workplace.

Custom solutions.
Connected workplaces.

Software, IT and network systems developed and implemented around each customer’s office and workplace requirements.

- Server installation, maintenance & monitoring
- Network configuration

03

THE JC SUPPLY DIVISION

Products & expertise for marine operations.

Established in 2023, JC Supply is a sister company of JC Marine Integration, extending the group into marine supplies and additional technical services.

2023

JC SUPPLY ESTABLISHED

Supplies, organised around vessel needs.

Deck & hardware

- Marine hardware
- Shackles & wire ropes
- Polypropylene ropes
- Marine type-approved valves

Safety & protection

- Lifesaving equipment
- Firefighting equipment
- Coveralls
- Safety shoes & boots

Provisions & consumables

- Provision supplies
- Lubricating oil
- Grease

Practical skills. Specialist support.

Calibration & overhaul

Qualified service engineers provide repair, maintenance and overhaul support.

- Gas detector supply
- Gas detector calibration

Hot works & fabrication

Experienced personnel provide repair and fabrication services.

- Steel welding
- Aluminium welding

Marine fire alarm systems.

Installation through annual inspection.

Qualified and experienced field engineers support various brands of marine-type fire alarm systems.

- Installation, repair & troubleshooting
- Annual inspections
- Fire alarm panels and fire / smoke detector sensors
- Portable fire and smoke detector testers

Technical clarity, from page to drawing.

Technical writing

Clear documentation for vessel operations and equipment.

- Ship operating & engineering manuals
- Maintenance plans: engines, gearboxes, control stands and deck equipment
- Review, update and convert existing files

Illustration & electrical design

Supporting technical graphics and custom drawings.

- Electrical drawings and vessel calculations
- Domestic-to-near-coastal vessel conversions
- New illustrations to customer requirements

Three companies. A shared commitment.

01 JC MARINE INTEGRATION SDN BHD 202301042692 (1536608-W)

Marine equipment & technical services

02 JC CONNEXION SDN BHD 202301044444 (1538360-W)

Satellite connectivity & network solutions

03 JC SUPPY SDN BHD 202301050114 (1544028-W)

Marine products & additional technical services

Let’s keep your operations moving.
