IT & Network System

Internet Airtime Subscription

JC Marine Technology provides comprehensive bandwidth solutions for communication systems as well as satellite airtime services for L-band, FleetBroadband (FBB) and Fleet One.

Internet airtime packages are available as:

Internet airtime packages:

- Prepaid: Various types of packages valid for one month or 30 days, commencing from the day of activation.
- Postpaid: Pay per use at an agreed fixed price.

Airtime Control System

JC Marine Technology offers an airtime control system on ships. This system features a firewall device capable of monitoring and controlling data usage, ensuring efficient and cost-effective satellite communication, such as:

- CCTV ports
- Email from ships’ computers or laptops
- Restricted websites
- User recognition by PIN code
- Mobile phone application restrictions
- Voucher-based internet access

VSAT / Starlink

We provide installation services for customers on their vessels, either at berth or at anchorage within port limit areas. At the same time, we provide satellite airtime services for VSAT and Starlink to customers who have already purchased their own satellite equipment and fitted it on their vessels.

Satellite airtime packages are available as:

Satellite airtime packages:

- Prepaid: Various types of packages valid for one month or 30 days, commencing from the day of activation.
- Postpaid: Pay per use at an agreed fixed price.

Vessel Tracking System

JC Marine Technology provides a ship tracking system powered by POLE STAR Purplefinder, providing reliable real-time tracking solutions.

We provide the following packages:

Tracking packages:

- Installation service for vessel tracking systems
- Airtime subscription for vessel tracking systems
- Equipment leasing and airtime subscription bundle

Satellite Equipment Leasing

LEASE TO OWN

We provide satellite equipment leasing bundled with internet airtime service.

Lease to Own (VSAT or Starlink)

Agreement of 24 to 60 months, where the monthly charge includes:

The client is eligible to buy the equipment at an agreed price once the lease agreement expires.

Monthly charge includes

- Satellite equipment
- Mobilisation and demobilisation (installation and dismantling)
- Equipment commissioning and setup
- Monthly airtime charge

Satellite Equipment Leasing

LIFE-TIME WARRANTY

We provide satellite equipment leasing bundled with internet airtime service.

Life-time Warranty (VSAT or Starlink)

Agreement of 24 to 60 months, where the monthly charge includes:

The customer is eligible to terminate after 24 months.

The customer is eligible to request a 1-for-1 equipment exchange if the equipment is found faulty or damaged due to non-human-caused damage.

Monthly charge includes

- Satellite equipment
- Mobilisation and demobilisation (installation and dismantling)
- Equipment commissioning and setup
- Monthly airtime charge

IT & Network System

We offer customised IT solutions for customers to meet their unique company requirements and needs.

Our services include the development and implementation of software, IT and network systems for offices and workplaces.

In addition, we provide the following services:

Additional services:

- Server installation, maintenance and monitoring
- Network configuration

About us

JC Supply Sdn Bhd, a sister company of JC Marine Integration was established in 2023 to expand our services into marine supplies.

We aim to deliver high-quality products and services, fostering long-lasting relationships with our customers.

In addition to marine supplies, we offer other services such as marine fire alarm system installation, service, repair and etc.

Type of Services

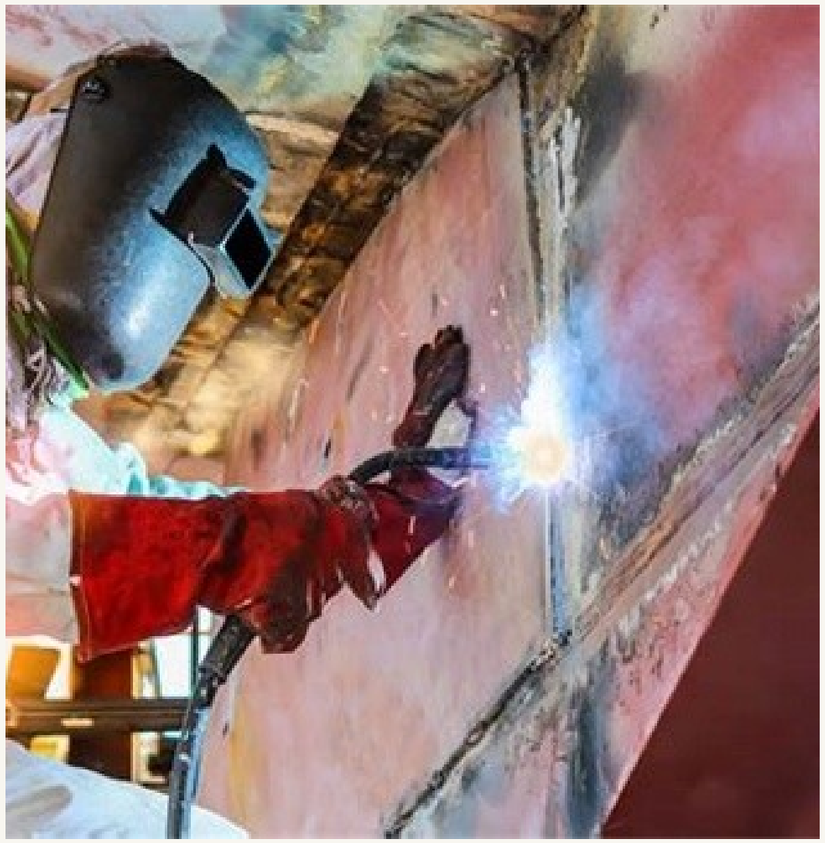

01 Hot-Works & Fabrication

02 Marine Supplies

03 Marine Fire Alarm System

04 Technical Writing & illustration Services

05 Calibration & Overhaul

Hot-Works & Fabrication

We further extend our service to provide all ranges of hot works services for repair or fabrication jobs.

Our hot work team comprises experienced personnel dedicated to delivering quality service that meets our clients’ expectations.

Our hot work services include:

Hot work services:

- Steel welding
- Aluminium welding

Marine Supplies

JC Supply provides marine supplies, including but not limited to:

- Provision supply
- Marine hardware supply
- Shackles
- Polypropylene ropes
- Marine type-approved valves
- Lifesaving equipment supply
- Firefighting equipment supply
- Lubricating oil and grease
- Coveralls and safety shoes / boots
- Wire ropes

Marine Fire Alarm System

We have qualified and experienced field engineers to carry out installation, repair, troubleshooting and annual inspection for various brands of marine-type fire alarm systems.

We also sell and supply various brands of marine-type fire alarm system panels, fire and smoke detector sensors, and portable-type fire and smoke detector testers.

Technical Writing

We have a technical writing team which specialises in writing ship operating manuals, ship engineering manuals, and maintenance plan manuals for engines, gearboxes, control stands and deck equipment. We can review your existing files and provide fresh insight into how they may be reused, updated and converted.

Ship operating manuals

Ship engineering manuals

Maintenance plan manuals

Illustration Services

Our illustration and graphic services can prepare supporting graphics for technical material, creating new drawings according to customers' requirements. We have extensive experience in electrical drawings and electrical calculations for vessels converting from domestic to near-coastal operations.

Technical drawings

Electrical calculations

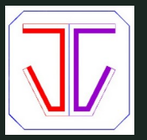

Near-coastal conversions

Calibration & Overhaul

We have qualified service engineers to perform repair, maintenance and overhaul services for gas detectors. Gas detector supply and calibration services are available.
